

ENGINEERING PRESENTATIONS

Presented by Senior Engineer Robb Davis

AVAILABLE PRESENTATIONS

Miro Industries' Senior Engineer Robb Davis is available to provide free live webinar presentations to your group at no charge.

Available presentations include:

- **Engineering presentation for CEU credit**
- **AIA credit course (1 HSW, 1 LU)**
- **MIRO products presentation**
- **Registered Roof Consultant course**

KEY LEARNING OBJECTIVES

1. Discuss who has an interest in the design and selection of rooftop equipment supports
2. Identify common issues associated with rooftop equipment and supports
3. Identify minimum code requirements for rooftop equipment supports per the International Building Codes and ASCE-7:
 - a. Gravity Loading (Dead, Live and Snow)
 - b. Lateral Loading (Wind and Seismic)
 - c. Uplift Loading (Wind)
4. Discuss how to handle rooftop supports as a Deferred Submittal or Delegated Design
5. Examples projects
