

SP Series

The OverWatch® Single Pump Series (SP Series) is a direct in-line ejector pump system designed to match pumping performance in real-time with the inlet flow. This single pump innovative design creates a safer operating environment with less maintenance than traditional systems.

The SP Series is designed for large, single-family homes or smaller multi-family, mixed use buildings.

Features & Benefits:

- No basin required, means no excavation
- Easy installation direct to basement floor or wall mount
- Odor free - All influent is contained
- Stainless-steel construction
- Self cleaning
- Float-less controls
